**CAREER DEVELOPMENT SOLUTIONS TEAM ATTENDS RENO'S 2024 BIGGEST BUSINESS EXPO EVER**

[Reno, NV] – Career Development Solutions proudly participated in the inaugural highly anticipated “2024 Biggest Business Expo Ever” hosted by the Reno + Sparks Chamber of Commerce on May 9, 2024. This premiere event hosted over 500 businesses and 3000+ attendees at the Reno-Sparks Convention Center and provided an exceptional opportunity for businesses to highlight their services, advertise job openings, and network with other local companies.

Representing Career Development Solutions at this esteemed event were Education Advisors Rena Drake and Grace Vazquez, and Solutions Consultants Brian Mulholland and Sean Steffel. The team was excited to engage with fellow chamber members and the public, showcasing the array of career training solutions offered to individuals and businesses by Career Development Solutions.

At Career Development Solutions' table, expo attendees found comprehensive information about the organization's range of career training programs. From professional certification courses to specialized training designed for businesses to upskill their employees, Career Development Solutions offers solutions tailored to meet the evolving needs of individuals and businesses alike.

Whether attendees were seeking to upskill for career advancement or looking to invest in the professional development of their workforce, Career Development Solutions stood ready to provide guidance and support. With a commitment to excellence and a mission of offering “Career Training Programs to Better Your Life,” Career Development Solutions made a meaningful impact at the 2024 “Biggest Business Expo Ever” by not only showcasing its career training offerings but also contributing to the collective growth and prosperity of the local economy.

Career Development Solutions has consistently demonstrated its commitment to empowering individuals with the technical skills and industry-recognized credentials needed to re-enter the workforce successfully or change career paths to enter the world of IT and tech.
